

MASERATI **DRIVING
EXPERIENCE**

Modena GT Experience

DISCOVER THE HOME OF MASERATI.

An immersive journey into the world of Maserati. Spend half a day at the Autodromo di Modena with all the excitement of driving the two most powerful Maserati models on a racing circuit. In this course you will learn to call the racetrack home, experience a GT Race Simulation, be guided through the historic Maserati car collection and be given a factory tour to see how the MC20 is brought to life.

On the circuit, you'll experience the cutting-edge performance of the GranTurismo Trofeo and MC20 models - both powered by the incredible V6 Nettuno engine.

With the support of our professional team of instructors, you'll learn how to master the car. For a taste of racing competition for the 2024 season, there are two new activities: the quality drive contest with telemetry data and a training program with driving simulators to take your driving skills to unprecedented heights.

To top off a compelling full day in Modena, there's the GT Race Simulation aboard the MC20 super sports car driven in Race mode by professional drivers for one final adrenaline rush.
