MAINTENANCE PROGRAM

# Cutting-edge performance, total peace of mind.

The pleasure of driving your Maserati is even more electrifying and engaging when uninterrupted, regardless of the journey you're taking or how fast you're driving.

That's why we've created a maintenance plan for the Grecale and GranTurismo Folgore models, designed especially for you.

This programme ensures that your car is maintained in excellent condition, at maximum performance and efficiency one mile after another, guaranteeing you a unique and daring driving experience in true Maserati style.

Peace of mind is also guaranteed by the experience of Maserati's specialist technicians, who use only original spare parts.

A silver Maserati Folgore electric sports car is shown from a rear three-quarter view, driving on a paved road. The road is lined with tall, slender cypress trees, creating a tunnel effect. The background shows a field of tall grass and a cloudy sky. The car's license plate is MA 189 GT.

# Compelling pleasure, uninterrupted.

Make sure that your Maserati undergoes all the checks and replacements of spare parts as set out in the maintenance plan for your Folgore. The programme covers the replacement of the pollen filter and brake fluid, battery charging up to 75% and certification of battery health.

For more information on coverage, restrictions and details, please contact our Official Dealers.

Get ready for a whole new driving pleasure, and enjoy a new electric mobility experience by Maserati.
